

Tent Sizing

What size of tent will you need ? Let us help !

The following provides approximate capacity space allowances for planning your event. Having these approximate space allowance figures available can help you determine what size of tent is needed for your event.
(to assure, accuracy please contact our professionals)

1st) What type of event are you planning ?
(standing, sitting, sitting at tables, dance floor, other covered space usage areas)

2nd) To determine the required tent size take the number of people expected at your event times the recommended space allowance figure which applies.

Without chairs & tables

standing
approximately 4 square feet per person

Without tables

sitting
approximately 6 square feet per person

With tables & chairs

6' banquet tables: recommend seating - 6 people per table
(recommended space allowance of 75 feet per table)
8' round tables: recommend seating - 8 people per table
8' banquet tables: recommend seating - 8 people per table
(recommend space allowance of 100 square feet per table)

With dance floor

approximately 6 square feet per person

Popup / canopy / tent sizes (width x length = total square feet)

Popups	10'x10' = 100 sq. ft.	10'x15' = 150 sq. ft.
Hex	40' = 1,043 sq. ft.	
Square	20'x20' = 400 sq. ft.	
Peak pole tents		
40'x60' = 2,400 sq. ft.	40'x80' = 3,200 sq. ft.	40'x100' = 4,000 sq. ft.
40'x120' = 4,800 sq. ft.		
60'x40' = 2,400 sq. ft.	60'x60' = 3,600 sq. ft.	60'x80' = 4,800 sq. ft.
60'x100' = 6,000 sq. ft.	60'x120' = 7,200 sq. ft.	60'x140' = 8,400 sq. ft.
